

Imperial Gothian(Odinssons) Exploits in the American Nott Family

Some people believe that the blood makes no difference in character traits of the descendants. The covenants of God to the firstborns, and the many Bible genealogies all being unnecessary. "Honour your father and mother" even less. They say the Saxon Kings always listing their descent from Odin, was just an ignorant practice. May this demonstration put all those lies to rest. Monarchs guarantee the rights of territories to the firstborns in many charters to their heirs perpetually and even "eternally". So naturally this firstborn line of the Nott(Odinssons) will be one of the better examples of God's faithfulness to keep His generational covenants.

- **Judge John Nott**, Feudal Serjeant Lord, Commander of the Wethersfield train band army in the Pequot war. At his most ancient court at Wethersfield was drafted America's first constitution. He drew the lines for the New Glastonbury and called up it's first militia.
- **Commander William Nott**, US Navy Captain during the war of Independence, reported directly to the Commander-in-Chief and to the Governor of Connecticut. Had captured many enemy British vessels.
- **His Excellency Governor Edward Nott**, Governor of Virginia. Died 1702, Monument with the family arms erected.
- **The Rev. Abraham Nott**, Yale Graduate D.D., Pastored Congregational Churches for 34 years, died in 1759.

- **Congressman and Judge Abraham Nott, Esq**, Born in Saybrook Connecticut 1768. Died in South Carolina 1830.

- **Dr. Josiah C. Nott**, writer of "Types of Mankind" 1854, the most concrete proof against Darwin's theories on race. Hero Confederate surgeon and was

the President of two Alabama Hospitals. His father was Abraham, born in Connecticut, from this main branch of Notts in America.

Charles C. Nott

- **Chief Justice Charles Cooper Nott**, appointed by Abraham Lincoln to the US Court of Claims, President Cleveland appointed him as Chief Justice. He was grandson of Eliphalet Nott.

- **Congressman Clarkson Potter-Nott**, Twice Elected to Congress in New York, (Served from March 4, 1869-March 3, 1875).
- **George (Nott-Brunswick)**. Made one of the greatest breakthroughs for the weapons industry. He then implemented his idea to make the first ever stable missiles for the military medium range type we have today. YAHWEH gave it to him as a vision when he was only a small level chemical engineer. Keeping His covenant with the Royal and Imperial Gothian line. He was congratulated (together with his team) by the Chief of Aerospace, Werner von Braun, for this achievement.

For more information about this line, including the complete genealogy of the senior house of Wessex, the several Ducal and Feudal Lordships, and Templar (non-masonic and anti-illuminati) Commanderies, you can inquire at the GIKT.
